Summary

Software developer with a strong background in Full Stack Development. Experienced in designing and implementing efficient solutions that drive business growth and improve user experiences.

Proficient in multiple programming languages, including Javascript, C#, and PHP, with expertise in front-end frameworks such as ReactJS, React Native and NextJS as well as back-end frameworks such as ExpressJS and NestJS using NodeJS.

Continuously staying up-to-date with emerging technologies and best practices, I strive to apply innovative approaches to problem-solving and software development challenges. Strong analytical and problem-solving skills allow me to quickly identify issues and provide effective solutions.

Passionate about building user-friendly and visually appealing applications, I consistently prioritize clean code and maintainable software architecture. Committed to delivering exceptional results and exceeding client expectations.

I'm Currently improving my english and working at Banco do Brasil in the development area with Stack Javascript front-end and back-end (NodeJS, ReactJS, NextJS), Database (SQL Server, MySQL and PostgreSQL) and Container orchestration (Docker, Docker-Compose and Kubernetes)
